Login

Trouble logging in?

If you are supervisor/manager, please try the [example login](#) and [User Name lookup](#) features. If you are not a supervisor/manager or are still not able to log in, please use this [request access to SMIS](#) link.

Forgot your password?

Use this [RESET PASSWORD](#) link to request a temporary password.

You can use this [CHANGE PASSWORD](#) link to update your password.

Logging into SMIS subjects you to the FAA [security regulations](#) found on the FAA Internet home page and the SMIS [RULES OF BEHAVIOR](#).

Welcome to the Safety Management Information System (SMIS). The purpose of SMIS is to collect and disseminate statistical information on employee safety and health to all FAA organizations. SMIS provides a way for the FAA to monitor OSH trends and policy implementation efforts throughout the agency. SMIS is best viewed with current generation web browsers like Microsoft Internet Explorer™ (IE5 and up).

FIRST TIME USERS: The first time you log into SMIS, you will be required to change your [Initial Password](#). **See Authorization insert** your [User Name](#) and [Initial Password](#), **select Login**; you will be prompted to change your [Initial Password](#). Information on how to use the system can be found under the Support tab.

For additional information or questions about SMIS please contact the support staff via email at [9-AWA-AHR-SMIS-AWA](#).

Unsatisfactory Condition Report (UCR) User:

For an overview of the UCR process the [video \(Windows Media Video\) presentation](#) and [UCR Handbook](#) are available for review.

Use this link to view the [UCR Policy](#) or this one to view the [UCR POCs](#) list.

Use this link to access the [UCR form](#) for reporting an unsatisfactory workplace condition.

Use this link to view the [UCR status](#) of your case.
