

PASS Article 13 / SME Program Report

Date of Update: August 3, 2015

Program Name: PDRR/ABRR (TFMS)

Program Contact/s: Mark Novak (Program Office), Rebecca Guy (Program Office), Sue Hogan (2nd level support), Biafra Carrington-Smith (Tech Ops Automation Support team AJW-134), Cynthia Marzette (TFMS Sustainment Support), Danny Sims (SLE POC for TFMS)

Current Program Status:

We have battled the program office for about a year over the certification of this system. We have a letter from Jo Tarrh, stating that ABRR should be certified. Last month (about July 10th, 2015) management including Jeff McCoy, had a meeting with the program office and it was decided that PDRR would no longer be certified. This will result in the loss of three certifications including ERAM, Minneapolis equipment, and Tech Center TPC.

I talked to Vaughn Turner and Jeff McCoy on July 29, 2015 and asked them about why there was a change. They said they were told that ABRR doesn't do anything different than what TFMS already does. I told them that this wasn't true. ABRR under TFMS is processing new routes to avoid weather or other issues.

Issues Affecting PASS:

Loss of Certifications

Program Issues:

Identify Support Needs: Contact management and find out details as to why certification was removed.
